

Cabra, 15, Castelló d'Empúries, 17486

Pretty little house with its barn in the center of the town of Castelló d'Empúries (Alt Empordà) of 109 m² built and distributed over two floors. It has electricity, water, habitability certificate and energy certificate. Ground floor: Large hall, living room with integrated kitchen, bathroom with shower, stairs to access the first floor and the independent 33-square-meter barn. First floor: Large bedroom with access to the sunny terrace of 6 square meters with a fantastic view over the roofs of the village houses. Castelló d'Empúries has a great historical medieval importance to this region. This is reflected in its layout- narrow, cobbled streets, village squares and monumental buildings such as the basilica of Santa Maria (better known as The Cathedral of The Empordà), The Old Bridge, The prison (not in use!) The monastery (now converted in to The Museum of Medieval History), the public wash house (also not in use!) the Flour Museum. Adjacent to Castelló d'Empúries is the largest residential marina in Europe- Empuriabrava. Empuriabrava is built around 23 kms of navigable canals, has 5000 moorings, port, two km magnificent beach and airclub.
